# Licensing

- Overview
- Prerequisites
- License for new users
  - Registering Base FortiSIEM Product
  - Adding Additional devices/services
- License for existing users

## Overview

**Starting release 4.10.0, FortiSIEM will only accept licenses issued by FortiCare.** AccelOps license server will not issue any more licenses effective immediately.

---

**FortiSIEM license key generation has been improved. Starting September 11, 2017, FortiCare will generate licenses ONLY using the new license key generation algorithm and will only work with FortiSIEM 4.10.0 and later releases.**

This has the following implications:

- If you want a new FortiCare license key, for any reason (for example, to extend maintenance and support or buy additional device license), you must upgrade to 4.10.0 first and then apply the 4.10 license.
- If you are upgrading to FortiSIEM 4.10.0, you must get a newly generated license key before starting the upgrade process.

---

**Note: FortiSIEM license issued by AccelOps license server will continue to work until the license expires.** However, you have to get a new license from FortiCare if:

- your current FortiSIEM license has expired.
- you need to buy additional services.
- you have a valid license and need to upgrade to FortiSIEM 4.10.0 and above.

## Prerequisites

Before proceeding with FortiSIEM license registration, read and save the required information related to the following:

- a. [Registration code](#)
- b. [Hardware ID](#)
- c. [FortiSIEM image download site](#)

### a) Registration code

FortiSIEM product functionality is driven by the product SKUs below. You have to first purchase the right combination of SKUs based on your needs from Fortinet. You will receive the registration letters via email that will contain a separate registration code for every SKU. You need to use these registration SKUs to obtain FortiSIEM

license.

| Product   | SKU                        | Description   |
|---|----------------------------|---|
| <b>FortiSIEM Base Product</b>                         |                            |   |
| FortiSIEM All-In-One Perpetual License                | FSM-AIO-BASE               | Base All-In-One (AIO) Perpetual License for 50 devices and 500 EPS.   |
|   | FSM-AIO-XXXX-UG            | Add X devices and EPS/device All-In-One (AIO) Perpetual license for Non-MSP/MSP's.  |
| FortiSIEM All-In-One Subscription License             | FC[1-8]-10-FSM98-180-02-DD | Per Device Subscription License that manages minimum X devices, 10 EPS/Device.  |
| <b>FortiSIEM Additional Products</b>                  |                            |   |
| FortiSIEM End-Point Device Perpetual License          | FSM-EPD-XX-UG              | Add XX End-Points and 2 EPS/End-Point for End-Point Perpetual License   |
| FortiSIEM End-Point Device Subscription License       | FC[1-8]-10-FSM98-184-02-DD | Per End-Point Subscription License for minimum X End-Points, 2 EPS/End-Point  |
| Add 1 EPS Perpetual License                           | FSM-EPS-100-UG             | Add 1 EPS Perpetual   |
| Add 1 EPS Subscription License                        | FC1-10-FSM98-183-02-DD     | Add 1 EPS Subscription  |
| FortiSIEM Advanced Windows Agent Perpetual License    | FSM-WIN-ADV-XX-UG          | XX Advanced Windows Agents for Perpetual License  |
| FortiSIEM Advanced Windows Agent Subscription License | FC[1-8]-10-FSM98-182-02-DD | Per Agent Subscription License for minimum XX Advanced Windows Agents   |
| IOC Service Subscription License                      | FC[1-G]-10-FSM98-149-02-DD | (X Points) FortiSIEM Indicators of Compromise (IOC) Service. 1 device or 2 End points or 3 Windows Agents equals 1 point. |
| <b>FortiSIEM Support</b>                              |                            |   |
| FortiCare Support for FortiSIEM                       | FC[1-G]-10-FSM97-248-02-DD | 24x7 FortiCare Contract (X points). 1 device or 2 End points or 3 Windows Agents equals 1 point.                          |

## b) Hardware ID

The Hardware ID (UUID) is used to uniquely identify the server where FortiSIEM Supervisor node will run. Based on the user-level, follow the steps below to get the Hardware ID.

- **New user:**

Follow one of the methods below:

- Open `https://<ip_of_supervisor>/`.  
The license upload page displays the Hardware ID.
- Go to the server where FortiSIEM Supervisor node has to be installed or is currently installed.
  - a. Login via SSH as `root`.
  - b. Run the command `cat /sys/class/dmi/id/product_uuid`
  - c. Note the output – you will need this to create a license.

```
# cat /sys/class/dmi/id/product_uuid  
4217EB48-63D4-5885-EEE7-C3EDD9589891
```

- **Existing user:**

- Flash GUI: Go to **Admin > License Management**.
- HTML5 GUI: Go to **ADMIN > License > License**.

## c) FortiSIEM image download site

- **Fresh installation:**

- If you are new to Fortinet products and do not have a support account other than FortiSIEM, download the FortiSIEM image from:  
<https://images-cdn.fortisiem.fortinet.com/VirtualAppliances/latestrelease.html>
- If you have existing Fortinet products, login to [Fortinet support site](#) and find the image under **Download > Firmware Images**.

- **Upgrade:**

- Use the traditional upgrade process which will download the image from the old location.

## License for new users

This section describes the procedures for new FortiSIEM users to license FortiSIEM product. There is no Base requirement for Subscription License, but the Ordering Quantity has to meet minimum quantity requirements of each SKU.

**Note:** The base device related SKUs has to be registered first.

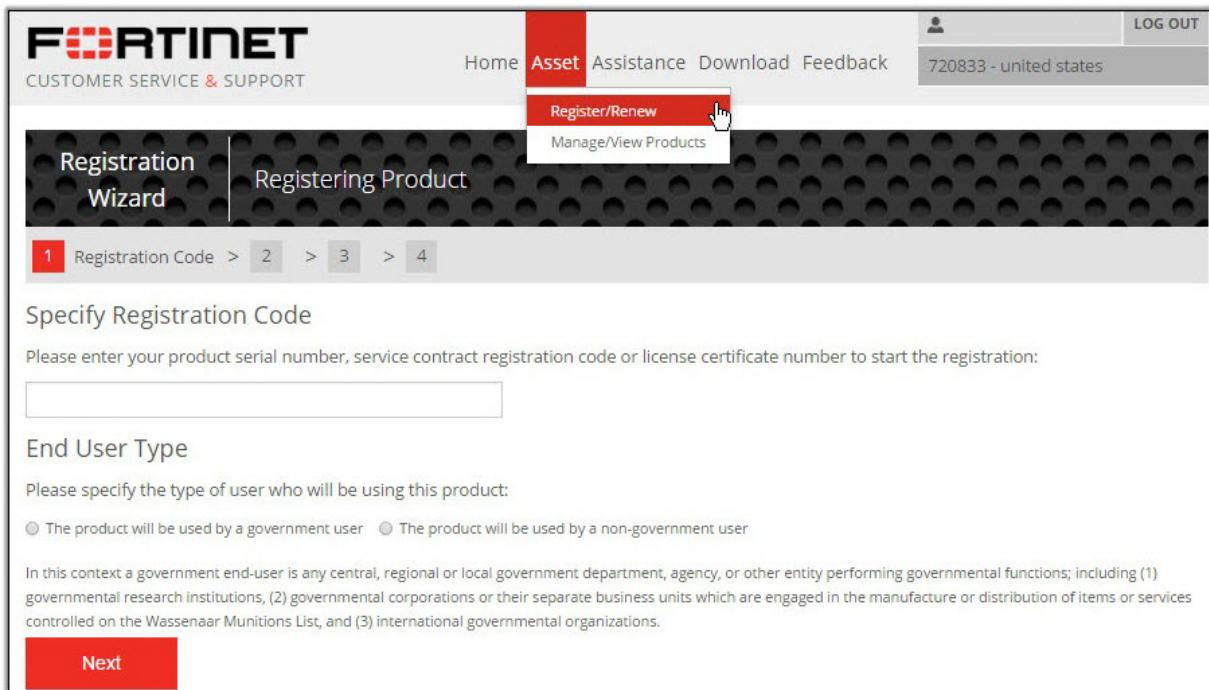

| Base SKU                   | Description  |
|----------------------------|--|
| FSM-AIO-BASE               | Base all-in-one Perpetual License for 50 devices and 500 EPS                   |
| FC[1-8]-10-FSM98-180-02-DD | Per Device Subscription License that manages minimum X devices, 10 EPS/Device. |

Other FortiSIEM products such as additional devices, windows agents, IOC Services, Maintenance and Support etc. can be added after the Base has been registered.

- [Registering Base FortiSIEM product](#)
- [Adding additional devices/services](#)

## Registering Base FortiSIEM product

1. Go to FortiCare Product Registration link: <https://support.fortinet.com/>
2. Click **SIGN UP** to create an account.
3. Log in using your **Account ID/Email** and **Password**.
4. Click **Asset > Register/Renew** and enter the **Registration Code** of the Base license based on the license type.
  - **Subscription based license:** Open the SKU file corresponding to the Subscription based license: *FC[1-8]-10-FSM98-180-02-DD* and get the Registration code.
  - **Perpetual license:** Open the SKU file corresponding to the Base Perpetual License: *FSM-AIO-BASE* and get the Registration code.

Registration Wizard | Registering Product

1 Registration Code > 2 > 3 > 4

Specify Registration Code

Please enter your product serial number, service contract registration code or license certificate number to start the registration:

End User Type

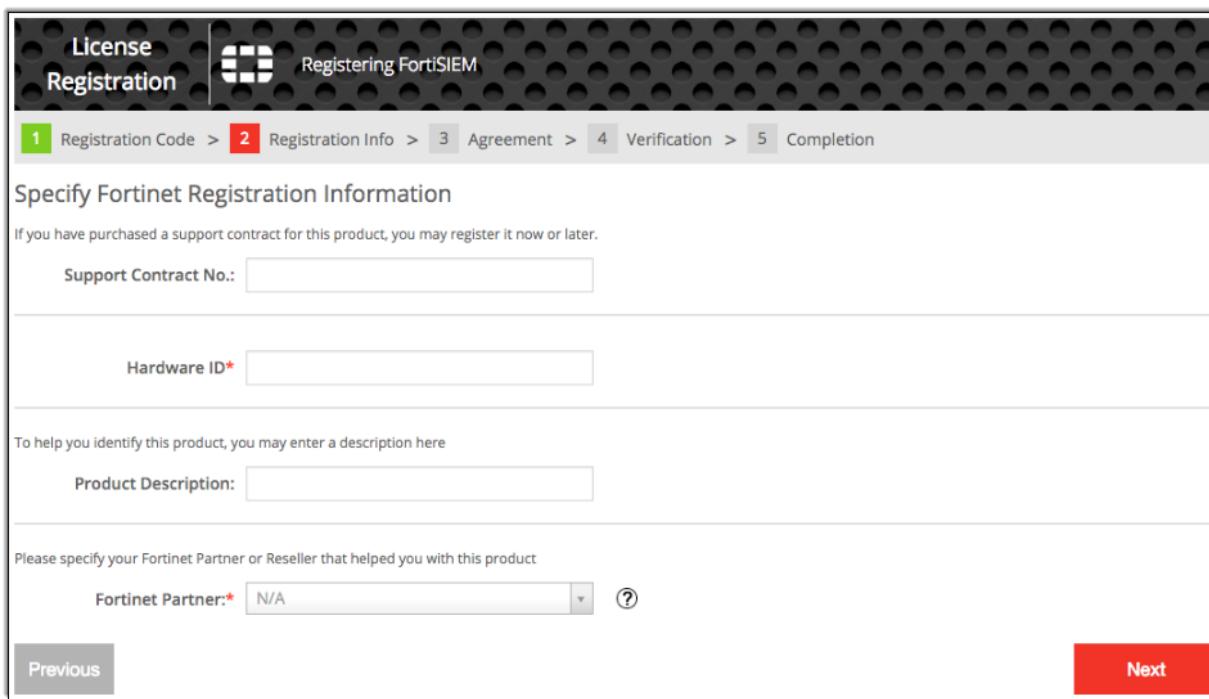

Please specify the type of user who will be using this product:

The product will be used by a government user  The product will be used by a non-government user

In this context a government end-user is any central, regional or local government department, agency, or other entity performing governmental functions; including (1) governmental research institutions, (2) governmental corporations or their separate business units which are engaged in the manufacture or distribution of items or services controlled on the Wassenaar Munitions List, and (3) international governmental organizations.

**Next**

5. Select the **End User Type** and click **Next**.
6. On the License Registration page, enter the **Hardware ID** and select the **Fortinet Partner** type from the list.

| Add 200 Advanced Windows Agents for perpetual license  |                              |   |
| Windows Basic Agent  | FSMWB4713054967              | 2017-04-25  |
| Add 200 Basic Windows Agents for perpetual license   |                              |   |
| <b>Available Key(s)</b>  |                              |   |
| Key  | License Number               | Description   |
| <a href="#">Get The License File</a>   | N/A                          | FortiSIEM License Key File  |

14. Download and install FortiSIEM. See [Prerequisites \(c\)](#) for the image location.
15. Once FortiSIEM is installed, log in and click **Browse** to select the license file.

**Note: If the UI does not redirect to the license upload screen, open [https://<ip\\_of\\_supervisor>/phoenix/licenseUpload.html](https://<ip_of_supervisor>/phoenix/licenseUpload.html) and upload the license file.**

16. Enter the **User ID** (default value: `admin`) and **Password** (default value: `admin*1`).
17. Select the **License Type** based on the deployment type as:
  - **Enterprise** for single organizations
  - **Service Provider** for multiple organizations
18. Click **Upload** which is enabled after selecting the license file.
19. Verify the license following one of the methods:
  - a. Verify the license information on FortiSIEM GUI:
    - Flash GUI: **Admin > License Management**
    - HTML5 GUI: **ADMIN > License> License**.
  - b. On the server where FortiSIEM is installed, execute the command on the license file and verify the license information:
    - `# phLicenseRead <LicenseFile>`

| Attribute               | Value            | Expiration Date |
|-------------------------|------------------|-----------------|
| Serial Number           | FSMS010000000255 |                 |
| License Type            | Not Decided      |                 |
| Devices                 | 500              | Jul 03, 2017    |
| Endpoint Devices        | N/A              | N/A             |
| Endpoint Device EPS     | N/A              | N/A             |
| Additional EPS          | N/A              | N/A             |
| Total EPS               | 5000             | Jul 03, 2017    |
| Basic Windows Agents    | 100              | Jul 03, 2017    |
| Advanced Windows Agents | 100              | Jul 03, 2017    |
| IOC Service             | Valid            | Jul 03, 2017    |
| Maintenance and Support | Valid            | Jul 03, 2017    |

**Note:** Using this tool, you will not be able to identify the License type.

c. On the server where FortiSIEM is installed, execute one the following commands:

- # phLicenseTool --show
- # phLicenseTool --verify

```
[root@VA61 ec2test]# phLicenseTool --show
License Information:
Attribute          Value          Expiration Date
Serial Number     FSMS010000000253
License Type      Service Provider
Devices           300           May 01, 2018
Endpoint Devices  150           May 01, 2018
Additional EPS    N/A            N/A

IOC Service       Valid          Apr 30, 2020
Maintenance and Support  Valid          Apr 30, 2020
[root@VA61 ec2test]# phLicenseTool --verify
license matched
[root@VA61 ec2test]#
```

## Adding additional devices/services

After registering the base license, you can register additional devices/services supported by FortiSIEM:

- Devices
- End points
- Windows Agents
- IOC Service
- Maintenance and Service

Follow the below steps to add a device/service:

1. Open the SKU related to get the Registration code. Refer to the table under **Prerequisites (a)**.
2. On FortiCare, go to **Asset > Register/Review** and add the **Registration code** of the new device.
3. Click the **Serial Number** obtained while registering the base.

| View Products    |                  | Total Records : 6 |                  | Filter: Off       | About To Expire |
|------------------|------------------|-------------------|------------------|-------------------|-----------------|
|                  |                  | Basic View        | Setting          | Export            | Advanced Search |
| Serial Number    | FSMP000000000251 | Description       | FSMP000000000255 | Ship Date         | 2017-04-25      |

Required Support Points: 50 ?

Edit

**Note:** If you are adding more devices or services, repeat the procedure of adding the related registration id to the same serial number and use the license generated at the end of registering all devices/services.

5. Go to **License & Key** tab and click **Get the License File** to download the license.
6. Download and install FortiSIEM image from the link: <https://images-cdn.fortisiem.fortinet.com/VirtualAppliances/latestrelease.html>  
Refer to the 'Installation' section of [FortiSIEM Installation and Upgrade Guide](#) for more information about FortiSIEM installation.
7. Log in to FortiSIEM and click **Browse** to select the license file.

**Note:** If the UI does not redirect to the license upload screen, open [https://<ip\\_of\\_supervisor>/phoenix/licenseUpload.html](https://<ip_of_supervisor>/phoenix/licenseUpload.html) and upload the license file.

8. Enter the **User ID** (default value: *admin*) and **Password** (default value: *admin\*1*).
9. Select the **License Type** based on the deployment type of your organization as:
  - **Enterprise** for single organizations
  - **Service Provider** for multiple organizations

**Note:** For earlier versions of FortiSIEM, the License Type options displayed were VA for Enterprise and SP for Service Provider.

10. Verify the license following one of the methods:
  - a. On FortiSIEM GUI:
    - **Flash GUI:** Go to **Admin > License Management**
    - **HTML5 GUI:** Go to **ADMIN > License > License**.
  - b. On the server where FortiSIEM is installed, execute the command on the license file and verify the license information:
    - `# phLicenseRead <LicenseFile>`

| Attribute               | Value            | Expiration Date |
|-------------------------|------------------|-----------------|
| Serial Number           | FSMS010000000255 |                 |
| License Type            | Not Decided      |                 |
| Devices                 | 500              | Jul 03, 2017    |
| Endpoint Devices        | N/A              | N/A             |
| Endpoint Device EPS     | N/A              | N/A             |
| Additional EPS          | N/A              | N/A             |
| Total EPS               | 5000             | Jul 03, 2017    |
| Basic Windows Agents    | 100              | Jul 03, 2017    |
| Advanced Windows Agents | 100              | Jul 03, 2017    |
| IOC Service             | Valid            | Jul 03, 2017    |
| Maintenance and Support | Valid            | Jul 03, 2017    |

**Note:** Using this tool, you will not be able to identify the License type.

c. On the server where FortiSIEM is installed, execute one the following commands:

- # phLicenseTool --show
- # phLicenseTool --verify

```
[root@VA61 ec2test]# phLicenseTool --show
License Information:
Attribute          Value          Expiration Date

[root@VA61 ec2test]# phLicenseTool --verify
license matched
[root@VA61 ec2test]#
```

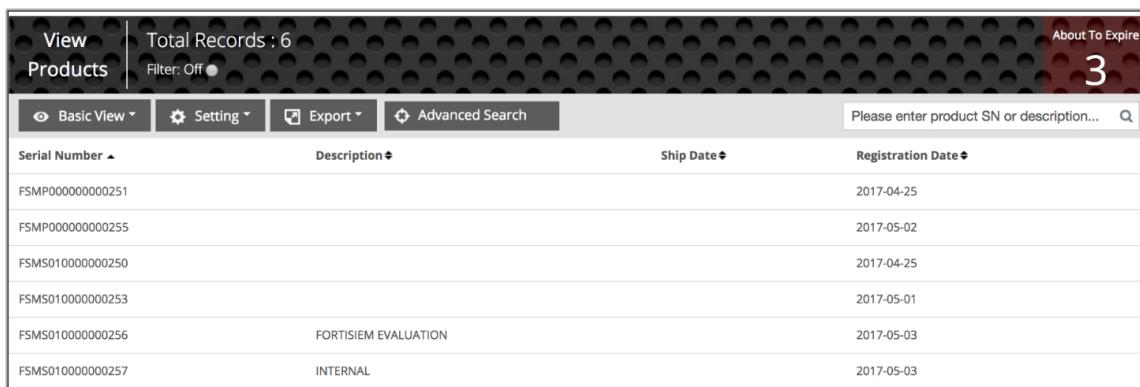

## License for existing users

For existing FortiSIEM customers, licenses are already imported into FortiCare. While the current FortiSIEM license will continue to work until the license expires, you have to get a new license from FortiCare, if you want to renew the license or buy additional products. Follow the below procedure to get a license:

1. Go to FortiCare Product Registration link: <https://support.fortinet.com/>.
2. Log in using your **Account ID/Email** and **Password**.
3. Click **Asset > Manage/View Products**.

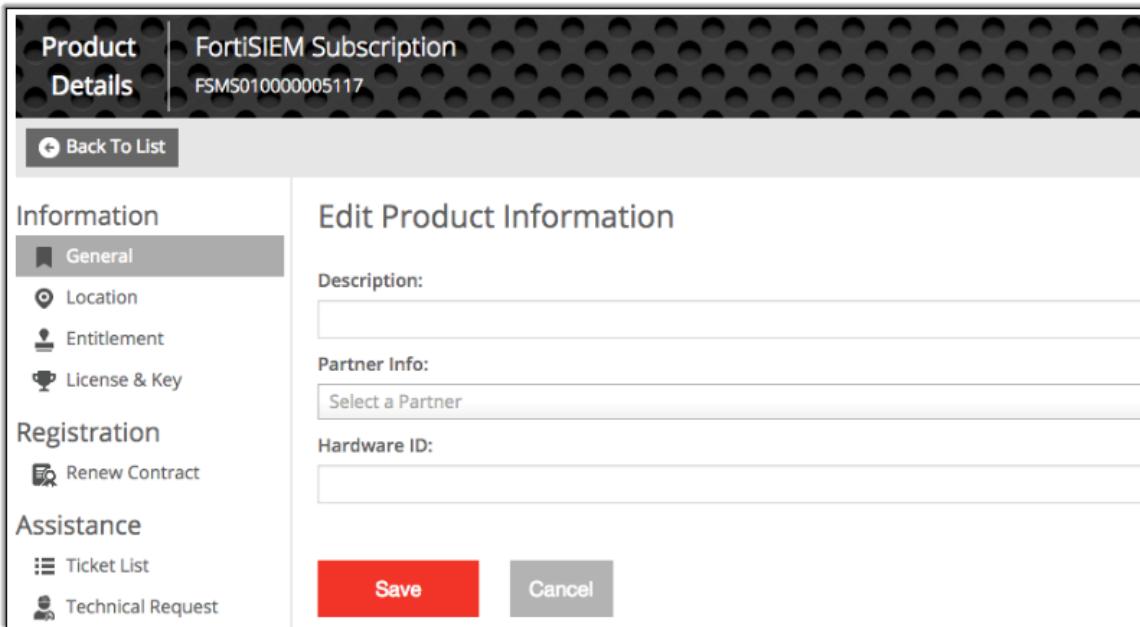

The **Serial Number** corresponding to your license will be displayed.

4. Click the **Serial number** and select the **General** tab on the left tree.

| View Products     |                     |            |                   |
|-------------------|---------------------|------------|-------------------|
| Total Records : 6 |                     |            |                   |
| Filter: Off       |                     |            |                   |
| Serial Number     | Description         | Ship Date  | Registration Date |
| FSMP000000000251  |                     | 2017-04-25 |                   |
| FSMP000000000255  |                     | 2017-05-02 |                   |
| FSMS010000000250  |                     | 2017-04-25 |                   |
| FSMS010000000253  |                     | 2017-05-01 |                   |
| FSMS010000000256  | FORTSIEM EVALUATION | 2017-05-03 |                   |
| FSMS010000000257  | INTERNAL            | 2017-05-03 |                   |

5. Click **Edit** to associate the **Hardware ID** and **Save**. Refer to Prerequisites (b) section to get the Hardware ID.

**Product Details**

**Ticket List**

**Technical Request**

**Edit Product Information**

**Description:**

**Partner Info:**

**Hardware ID:**

**Save** **Cancel**

6. Go to **License & Key** tab on the left tree and click **Get the License File** to download the license.
7. Before installing the license, please verify that you have the right license installed. **The system will not function if you have an incorrect license.**

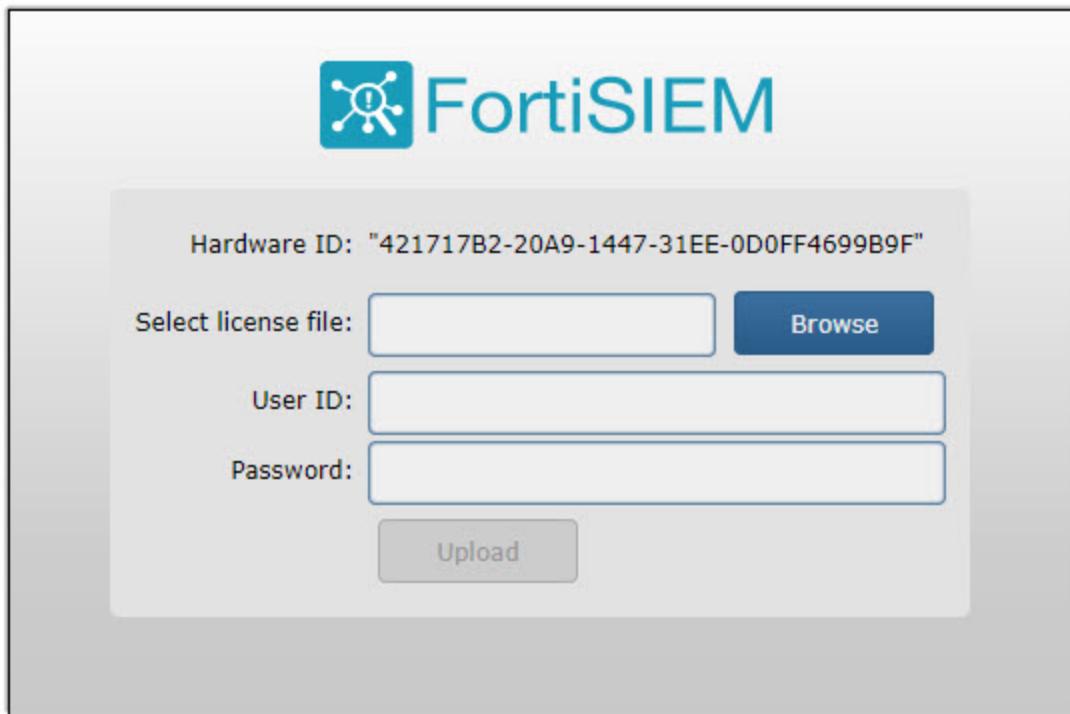

Verify the license:

- a. Download the `phLicenseRead` tool from the image download site. See [Prerequisites \(c\)](#).
- b. Copy the `phLicenseRead` tool to `/opt/phoenix/bin` in the Supervisor node. Make sure the permissions are correct (`root/root`).
- c. Execute the command on the license file downloaded in [Step 6](#) to verify the license information: `# phLicenseRead <LicenseFile>`

**Note:** Using the `phLicenseRead` tool, you will not be able to identify the License type.

**Note: If the license is incorrect, contact Fortinet support to get the right license. Do not install partial license.**

8. Upgrade FortiSIEM.  
Refer to the 'Upgrade' section of [FortiSIEM Installation and Upgrade Guide](#) for information about upgrade process.
9. After the Supervisor reboots, log in to the Supervisor node and click **Browse** to upload the license file from [Step 6](#).

10. Enter the **User ID** (default value: `admin`) and **Password** (default value: `admin*1`).
11. Click **Upload**.
12. Verify the license information from the GUI.

The screenshot shows the FortiSIEM Licensing interface. At the top, there is a navigation bar with icons for DASHBOARD, ANALYTICS, INCIDENTS, CASES, CMDB, RESOURCES, and ADMIN. Below the navigation bar, there is a sub-navigation bar with tabs for License, Usage, and Nodes, with Nodes being the active tab. Under the Nodes tab, there are buttons for Add and Delete. The main content area displays a table with one row. The table has two columns: 'Mode' and 'IP Address'. The 'Mode' column contains the value 'Supervisor', and the 'IP Address' column contains the value '172.30.53.118'.

| Mode       | IP Address    |
|------------|---------------|
| Supervisor | 172.30.53.118 |
